FRESHER | OPEN TO OPPORTUNITIES

PROJECT DONE

Main Project

Optimized WPT for Electric Vehicles

Developed a smart wireless power transmission system for EVs that uses wheel-activated sensors to detect vehicle position and selectively power the optimal coil, enabling efficient energy transfer, reduced power loss, minimal interference, and quicker charging startup.

Mini Project

Smart Lock System

Built a smart RFID-based lock system using Arduino for secure and efficient access control with seamless hardware-software integration.

Skills

HTML , CSS
Python
Javascript
vs code
Material UI
Web Development
Networking
Embedded System

HOBBIES

Travelling
Puzzle solving
Photography
Gardening

CO AND EXTRA

CURRICULAR ACTIVITIES

- Participated in **SMART INDIA HACKATHON** (2023 and 2024).
- Active participation in National Level **Technical Symposium** at various Institutions.

INTERNSHIPS AND COURSE DONE

1. In-plant Training :

ISRO Propulsion Complex (IPRC), Mahendragiri

Duration: [2 weeks , 2024]

2. Web Development Internship :

KELTRON , Thiruvananthapuram

Duration: [2 weeks , 2024]

3. Networking Internship :

KELTRON , Thiruvananthapuram

Duration: [4 weeks , 2024]

4. Python Internship :

Srishti Innovative, Technopark

Duration: [1 week , 2024]

5. TCS ion Career Edge - IT for Non -IT Course.

6. MERN Fullstack Course :

Karka Software Academy | In progress

Duration: [4 Months , 2025]

EDUCATION

B.E in **ECE** with Minors in **CSE** (2021-2025)

Current CGPA : **8.39**

Ponjesly College Of Engineering

HSC (2021) : **85%**

Alphonsa MHSS

SSLC (2019) : **83.8%**

Alphonsa MHSS
